The Firearms Training Unit maintains the following less lethal devices.

1. The Armory currently issues, maintains, and services the Remington 870 platform as the departmentally approved less lethal launcher. It is differentiated from the lethal version by the application of an orange stock and orange fore end.

2. The Armory maintains a limited stock of, and issues, CTS Model 2581 2 ¾ 12 gauge Super Sock Bean Bag for use in the approved 12 gauge launcher system from inventory.

3. The Armory maintains and issues the following Taser EDC devices;
 - A. X2
 - B. X26 Series
